

NO NEED TO SUFFER SO.

"She bears her sickness patiently; she makes no complaint." How often we hear that said and how it stirs the pity in our hearts. There are plenty of sufferers of whom it is true, of both sexes and all ages. The success of modern science, however, in combating disease is at once a cause for gratitude and wonder. It is well to bear pain patiently, yet is it not better not to be obliged to bear it at all? "Yes, say we all," if we can only prevent suffering or get rid of it. Well, the medical art is making a great record along this line in these days. Remedies have been discovered within the past few years which prove how sincere and persevering has been the search after knowledge, and how rich the reward. Chief among these splendid results is **WAMPOL'S PREPARATION** now known and used all over the world. For one thing it solves the vexed question of how to employ cod liver oil in consumption and other wasting diseases without doing more harm than good. This alone is a victory second to scarcely any in the history of medicine. Discarding the objectionable peculiarities of this otherwise valuable drug, the preparation, which is palatable as honey contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It expels the germs of disease from the blood and supplies flesh and strength to the wasted and feeble body. It creates appetite and causes your food to nourish you. It is a wholesome medicine guaranteed to do what is claimed for it. Effective from the first dose. "Never disappoints." Sold by chemists here and everywhere.

OLD MAN SUMNER'S GOOD MONEY IS MELTING AWAY

**Says Davis Threatened Him and Got \$2000
More and Magoon Got \$4000—Wally Davis
Got \$10,000—A Mortgage Loan Scandal.**

"I have settled up everything now," said John K. Sumner at his new Kalihi residence yesterday. "This morning I paid \$4,000 to Mr. Magoon for his fee, and now I am done with lawyers. George Davis? Oh yes, I paid him. I had to do it. He threatened me. I gave him \$2,000 and that settled it. I paid him the same day that I got my money. He threatened that he would tell the judge and hold up the money if I didn't. I offered him \$1,500, but he wouldn't take that, he wanted \$2,000 and I had to give it to him.

"I was afraid the lawyers would make more trouble if I didn't pay them. They have the best of me you see. If they sued me I would have to hire more lawyers, while they don't need to, they can act for themselves. And maybe I wouldn't get my money without the lawyers. Humphreys would work for nothing for the boys until they got hold of my money.

"That agreement with Davis for \$3,000? He couldn't collect that. That was only for his getting the money out of the bank that one day. He was to go down and collect it from the bank and said he would do all sorts of things if Damon didn't pay him over the money. But he didn't get it the next morning, so everything was pau. Wyllie and Maria were all here and heard that. So he didn't ask for \$3,000. Still Davis worked too. He talked and insulted like the rest of them.

"I paid Magoon \$4,000 and he said everything was all right. He said he was satisfied and that settles the lawyers. This fee was for all the time he appeared in court since that first time before Judge De Bolt. Now I have paid everything, all except a little doctor bill and they will let me alone now. I will send the balance of my money away where none can touch it."

"I hear you paid Wally Davis \$10,000."

"Yes, I did. It was the money his mother gave back to me to live on."

"You have been heard to say, Mr. Sumner, that Mr. Wundenberg advised you to lend \$10,000 to Campbell, the contractor, on a milling plant which stands on Mr. Magoon's land and will revert to him in a little while. Is that so?"

"Well, there was something of the kind but I'd rather not talk of that."

"How much money have you left out of the original \$110,000? As much as \$30,000?"

"Oh, maybe so."

AFTERNOON DISPATCHES FROM ASSOCIATED PRESS

MADRID, July 20.—A new cabinet has been formed with M. Vileverde as premier.

SEATTLE, July 20.—The Golden Gate Hotel, one of the large hotels of Nome City, has been destroyed by fire. Three persons lost their lives and many others had narrow escapes.

NEW ORLEANS, July 20.—District Attorney Gurley was assassinated today by former clerk Lyons. Lyons has committed suicide. The murder was the result of a personal grudge dating back to the time of Lyons' employment in the office.

SOLEDAD, July 20.—The government forces made an attack today on the rebels in Ciudad Bolivar and a fierce battle, the issues of which are still undecided, resulted. The battle opened this morning and the government has sustained a loss of a hundred men. Two hundred rebels have been killed. The city was shelled by five Venezuelan vessels. The fight still continues, with the rebels making a stout resistance.

FACTS ABOUT OURSELVES.

Some interesting experimental conclusions on the subject of habits have been published by Professor Arthur Allin, who occupies the chair of psychology and education at the University of Colorado. Professor Allin illustrates, by familiar example, certain of the laws underlying many of the most common of our acts and habits. For instance, it is a fact that a single weak stimulus, which is itself incapable of causing a reflex act, may produce it if it is repeated often enough.

"The sound of a doorbell may not call up much of a motor response, but repeated often may cause a very considerable response. A slight tickling when one is asleep or awake may, if continued, produce convulsive responses. To strike a horse repeatedly on the same spot is to invite him to kick. Continued dropping of water from a faucet during the night, or the intermittent sounds of a mouse gnawing, produce extreme irritability. . . . The psychology of advertising shows many evidences of this law. Temptation in all its forms usually works by the summation of stimuli. The young man of slight moral resistance, on his way home in the evening, passes through one, it may be two, streets of saloons; in the third street his inhibitory power is exhausted and he passes helplessly through the doors."

The training of one portion of the body trains at the same time the symmetrical part and also neighboring parts says Professor Allin. "Experiments show, for example, that practice of the finger tip of the left hand increases the fineness of the touch of the finger tip of the right hand, but does not increase that of the left forearm. The ability to write with the left hand is obtained by learning with the right hand. Practice in writing the figure 9 backward with the left hand frequently causes one involuntarily to write the 9 backward when using the right."

In learning nonsense-syllables, i. e., syllables consisting of a vowel between two consonants, an adult, writes Professor Allin, is able to memorize much larger rows of syllables than can children. "To give a relative estimate, those at the age of 18 to 20 can reproduce approximately one and a half times as many syllables as those from 8 to 10 years of age. After completed bodily development the figures remain practically constant."—Harper's Weekly.

Free to Men! A Book Full of Facts About

Dr. McLaughlin's Electric Belt for Weak Men

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE he wants to; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book in which I describe how I learned that manly strength was only electricity and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

A HAPPY MAN

Dear Sir: Having used your famous electric belt for thirty days, I have received the greatest benefit that a man could gain—that is, health and strength. The tired, despondent feeling has gone. I feel the beginning of a new life, and am ever your debtor.

P. O. Box 452, Tucson, Arizona. W. E. CLARK.
I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells, varicocele or any ailment of that kind that weakens you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed free, if you send this ad. Call for free consultation.
